STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: South Carolina

Method for Determining Cost Effectiveness of Caring for
Certain Disabled Children At Home

On an annual basis, each recipient's expenditures will be measured against the cost of care in an institution to ensure that home care is more cost effective than institutional care.

For each recipient the cost of home care services to the Medicaid Program must be no greater than the costs that would be incurred if the recipient were placed in an institution which meets the recipient's needs.
